FOR IMMEDIATE RELEASE

Healthcare IT News to Participate in the CIO Healthcare Summit as a Media Partner

January 22, 2010-- The CIO Healthcare Summit team is pleased to announce a new media partnership with *Healthcare IT News*, a monthly newspaper and online resource that covers new technologies, IT strategies and tactics, statutory and regulatory issues, as well as provider and vendor updates.

The CIO Healthcare Summit, to be held May 9-12, 2010, is an opportunity for IT executives in the healthcare industry to network with their peers and attend various education sessions, including CIO case studies, thought-leadership workshops, keynotes and more. Hosted at the exclusive Phoenician Resort in Scottsdale, AZ, the three-day technology event allows executives to learn about new technologies and explore IT trends in the healthcare industry.

Healthcare IT News is published in partnership with the Healthcare Information and Management Systems Society and reaches more than 54,000 subscribers, including IT management, C-suite and general management at hospitals, IDNs, group practices, ambulatory care facilities and more.

"*Healthcare IT News* caters to the same audience base that would attend the CIO Healthcare Summit. We are excited to partner with them for this event and look forward to the value that they are sure to add to it," said Nick Backhouse, Event Director, CIO Healthcare Summit.

With a balanced agenda, delegates from top healthcare organizations and engaging keynote speakers, the CIO Healthcare summit is a must-attend event for healthcare technology executives in 2010.
