

FOR IMMEDIATE RELEASE

CDM MEDIA GAINS ACCREDITATION AS OFFICIAL (ISC)² CONTINUING PROFESSIONAL EDUCATION (CPE) SUBMITTER

*Summit Portfolio Recognized by International Information Systems Security
Certification Consortium*

Chicago- June 1, 2016: CDM Media, a leading B2B marketing and media firm, is thrilled to be recognized by the International Information Systems Security Certification Consortium as an official (ISC)² Continuing Professional Education (CPE) Submitter.

(ISC)² is the global, not-for-profit leader in educating and certifying cyber, information, software and infrastructure security professionals throughout their careers. Recognized for Gold Standard certifications and world-class education programs, all (ISC)² credential holders must earn Continuing Professional Education (CPE) credits throughout the life of their certification. This ensures members are continually adding to their depth of knowledge in the field and keeping current with all new developments. CPE credits can be earned in a variety of ways, including industry events, conferences and now CDM Media summits.

James Quin, VP Events at CDM Media commented on the impact of the recent accreditation: "(ISC)² is the pre-eminent certification body for information security professionals and this accreditation is an indication of the value they find in the attendee-directed programs that we put together at CDM Media. Ensuring security professionals stay at the forefront of the information security space is the point of the CPE program and we are happy that (ISC)² recognizes attendance at a CDM Media Summit is an excellent way to do so."

As an (ISC)² Certified CPE Submitter, CDM Media submits the Group A and Group B CPE credits directly to (ISC)² at the conclusion of each summit in order for CISSP certification holders to maintain that credential.

Unlike typical tradeshows designed to attract hundreds of individuals of all different levels of seniority, from various industries, CDM Media's events host a more exclusive event limited to 40-50 leading senior executives. This targeted and intimate event design yields strong collaboration, innovation and discussions key to individual success.
