Zscaler **simplifies IT** and **reduces costs** while **enabling your business**
for the challenges of **mobility**, **cloud apps** and **social media**

No Hardware. No Software.

Challenge: 2/3 of all employees use confidential data outside the office. 1/4 of all employees access corporate email from unprotected, public places.

Solution: Zscaler integrated services to protect users on the go and their mobile devices.

Challenge: By 2014 34% of total enterprise apps will be cloud apps.

Solution: Zscaler provides cloud app and fine grained social media controls.

Challenge: Your enterprise is highly distributed. Your MPLS networks cost millions a year.

Solution: Go direct to the Internet via Zscaler Secure Cloud Gateway. Eliminate backhaul and high latency associated with extensive MPLS networks.
