● The Company

Formed in 1999 to address a gap in the private security market in South Africa for highly trained professionals in the Security industry. Because of the exceptionally high standards and service levels offered by TSU Protection Services, the company was approached by International Security companies to represent them in Africa.

We, at TSU International, want to forge long standing business associations with companies operating in the security industry in Africa and address these inequalities. We have access to accredited training capabilities that will address these inequalities and ensure that services are rendered to a very specific and agreed to service level. TSU International will strive to ensure that the excellence they pride themselves on, is duplicated in all countries they operate in.

Our broad blue-chip client base bears testimony of our ability to ensure that our clients' needs are met and their security risks reduced. A broad base of expertise, experience and resources ensures that we deliver the best results attainable for each assignment. Our highly qualified team of experts, sophisticated skills combined with their commitment to excellence, adds value to our service delivery and often creates additional opportunities with clients.

Service

TSU Protection Services specialises in Executive Protection, Maritime Support Services, Specialised Training, Specialised Uniformed Security Services, Armed Response, Special Projects - Venue Protection Armed Escorts, and Consulting Risk Management.

Sound Business Ethics

At TSU Protection Services, we will only commit to a potential project or a contract if we are sure that we can deliver the requirements to our own unique high standards and service levels. We will never accept a project unless we are sure that we have the resources to deliver. We work closely with the official law enforcement agencies and adhere strictly to the letter of the law, a boundary that we will never overstep. We will also never accept a project from a client that we feel does not conform to the same ethics and principles that we do.
