CDM Media Partners with Wireless Week for Upcoming Technology Events

January 27, 2011 – The CDM Media team announced today that it has formed a strategic partnership with Wireless Week, a magazine and online portal that offers intelligent and in-depth information addressing the people, companies, technologies and ideas that are transforming the wireless industry.

CDM Media has partnered with Wireless Week for two upcoming technology events:

- CIO Canada Summit, February 27 - March 2, 2011, www.ciosummit.ca
- CTO Telecom Summit, September 18 – September 21, 2011, www.ctotelecomsummit.com

Founded in 1995 and part of Advantage Business Media, Wireless Week, www.wirelessweek.com, provides readers with comprehensive coverage of the telecom industry, including articles on devices, carriers, emerging technologies and policies. Content on the site includes everything from blog posts to white papers to videos. Wireless Week's online community also includes a forum for registered users to discuss the latest wireless topics and trends.

CDM Media's CIO summits bring together C-level technology executives, IT analysts, and solution providers to attend educational sessions and make new business contacts in a relaxed, yet focused setting. The events are an opportunity to discuss the latest technology trends, share ideas, and establish best practices.

"Wireless Week is a great resource for any CIO who is interested in keeping up with the latest news on the wireless industry and wireless technology. I'm excited to be partnering with them for the upcoming events and look forward to introducing this great resource to the events' attendees," said Glenn Willis, CEO, CDM Media.
