CDM Media Partners with CISOHandbook.com

CHICAGO, April 24, 2012 – CDM Media announced today it has formed a strategic event partnership with <http://www.CISOHandbook.com>, a resource site for CISOs, CSOs and security professionals, for the upcoming CISO Summit and CIO Midmarket Summit.

CDM Media's summits bring together top IT executives, analysts and solution providers across several vertical markets to discuss each industry's hot topics, trends and challenges in a unique business setting. Each CIO Summit provides interactive agenda sessions, in-depth discussions and networking opportunities. "CDM Media summits are a brilliant mix of top-notch information that is customized for specific types of organizations. All this is delivered in an intimate environment that fosters collaboration and enables the attendee to maximize their ability to learn practical approaches quickly," says Mike Gentile, Co-Author of The CISO Handbook and founder of CISOHandbook.com.

CISOHandbook.com was initially created in 2004 as an information companion for the book "The CISO Handbook, A Practical Guide to Securing Your Company." In the beginning, the core focus was primarily on tools that could help security managers or executives with the challenges and opportunities they faced in the performance of their daily jobs. Over time, the emphasis of the site shifted more to the concepts associated with Security Program Development. As a result, the content is still geared to the security manager, but the wider focus now enables value for security professionals of all levels within an organization.

www.CISOHandbook.com is an event partner for the following technology summits:

- CIO Midmarket Summit: June 3 – June 5, 2012 www.ciomidmarketsummit.com
- CISO Summit: June 7 – June 8, 2012 www.cisosummit.us

"IT and web security is always a key focus and concern for summit participants, regardless of someone's level of involvement in a company. CISOHandbook.com has tailored its content to be relevant to all levels of IT leaders, which will serve as an important asset to all those involved in the CISO and Midmarket summits," said Ross Abbott, VP Sales, North America, CDM Media.
