

FOR IMMEDIATE RELEASE

CREATIVE SOLUTIONS IN HEALTHCARE CIO/CISO TO SPEAK AT CIO AND CISO DALLAS SUMMITS

Shawn Wiora to Lead Think Tank Discussion at Regional Summits

Chicago- May 16, 2016: CDM Media is pleased to announce Shawn Wiora, Chief Information Officer and Chief Information Security Officer at Creative Solutions in HealthCare, as our Think Tank speaker for the CIO and CISO Dallas Summits for May 24, 2016 in Dallas, Texas.

Our speaker comes to us with over 25 years of experience in the technology field. He is currently responsible for growing the technology vision at Creative Solutions in HealthCare and delivering successful innovative information systems, key cyber-security initiatives and driving efficiencies through technology. His recent work as a turnaround executive has led him into positions as COO, CIO and CISO. Wiora has been internationally recognized as a Cloud Visionary and is frequently interviewed and carried in national media for technology executive, technology vision, human resources leaderships and other topics. He has a unique combination of healthcare, IT and business achievements. He is an industry expert and frequent conference speaker for HIPAA, PCI, NIST, HITECH, HITRUST, InfoSec and SOX.

Wiora will lead a think tank discussion on “From the Trenches to the Clouds” at the Dallas summits, with a number of takeaways.

Takeaways include:

- Without a solid-up front plan, any cloud implementation is going to be, if not doomed to failure, at least doomed to failure, at least doomed to limited success
- Successful cloud migration means paying attention to technical (how do you integrate apps? Data?) and non-technical (what happens to staff when roles change?) issues alike
- Hurdles don't disappear at go-live and ongoing effort is required to ensure early success are sustained throughout the life of the deployment
